HCO BULLETIN OF 19 MAY 1969
(HCO BULLETIN OF 16 APRIL 1969)
(Revised)

**Health Form, Use of
A Brief Description of Auditing**

As one needs a guide to know what to audit on a case, the Dianetic Health Form is an essential auditing action.

Also, some cases do not know they have recovered.

It is Scientology that addresses improved awareness, not Dianetics. Dianetics accomplishes an eradication of the unwanted condition and when it is gone it is gone. The pc will not again mention it in many cases and it would be an error to hammer him about being better now.

Therefore a second Health Form gives a comparison. The somatics and pains not mentioned in the second which were in the first can be considered to be gone.

A second form done later gives the auditor and, (when a Case Supervisor is also on the case) the Case Supervisor an indication of the actual improvement. A few days, weeks or months can elapse between giving the form. This gives an indication of improvement. Any number of Health Forms can be given.

One of the old problems of Dianetics was that the pc recovered from his arthritis fully and then only nagged the auditor about a new symptom. It wasn't that the pc **had** to have an illness (only the 19th Century psychologist believed that it was no use to cure anything as the patient just got something else). The fact is that the symptoms of the pc are **several**, not just one.

You take up and audit **each** symptom or complaint to erasure of its picture, one after the other.

This is a new advance in Dianetics - that a preclear's illness or upset has more than one source. His illness or upset is a **composite**.

You audit the most available symptom first until the picture causing it is erased. Then find the next one and audit it to erasure of its picture then the next, etc.

The symptom which has the longest read and also in which the pc is interested is the one to do first. You run its chain to erasure of basic and it vanishes.

Then do the one which has the longest read (omitting the first from the list) and in which he is interested and run its secondary or engram or chain to erasure.

Now find the next symptom etc.

Sooner or later the pc will have a well, healthy body, health, stability and a sense of well being.

One finds "an incident which could have caused that", dates it loosely, runs it as an incident without pushing hard, gets an earlier similar incident and runs that, or even a third or fourth earlier similar (each time earlier) incident until a floating needle or the pc indicates the **PICTURE IS GONE** (has erased).

Then one finds out what may now be bothering the pc by new assessment and does the same action on it.

You can expect each chain erased to end with **GOOD INDICATORS**, pc smiling and happy. It is not all done in one session.

You only end a session really when the pc is smiling and happy after an erasure of the basic picture on the chain.

Sooner or later the pc will become bright, happy, symptom free, a stable and has a well body. Then one shifts the preclear off into Scientology auditing to bring about maximum intelligence and ability. Symptoms are pains, emotional feelings, tiredness, aches, pressures, sensations, unwanted states of the body, etc.

If you are auditing without a meter, you take the pc's **interest** as the indicator. You audit the symptom in which he is interested and cease to audit it when it is gone. This however is very chancy and often fails, so an

E-Meter is recommended.

You can use whatever is given on the original Health Form that was done until the form is no longer valid or until the pc's good indicators are in. When the pc brightens up, that's the end of the Health Form. A new one must be done **WHEN THE PC IS AGAIN FEELING BAD, TIRED OR WORRIED.**

The purpose of any session or series of sessions is to get the pc feeling well and happy.

Sometimes the pc's condition is obvious and the engram equally obvious. The pc has just had a child. The delivery of it and any earlier similar engram is of course audited at once. Any recent experience is so handled.

If a pc wants no auditing and yet is ill or miserable, one finds out why he doesn't want to be audited by getting him to explain (when he will become auditable) or one finds and runs as secondaries, engrams or chains bad experiences with treatment. The best answer to a difficult pc is to send him or her for a Scientology Review and then begin Dianetics.

If the pc doesn't recover at all, then the Auditors Code has been violated or the engrams were overrun or not run long enough to erase or the pc was very ill medically and should have had a medical examination first.

But even with poor auditing it is rare for a pc not to recover.

Of course, the more skilled (follows the Auditors Code, knows his meter, knows his Dianetics) the Auditor is, the more certain recovery becomes.

The worst crime is overwhelming the pc by telling him what's wrong, not letting him tell you.

The Health Form is of very great assistance in handling all this. The use of it is as follows:

1) The Auditor sits down with the pc (usually the pc on a meter) and explains he's going to do a Health Form and try to help the pc.

2) The Form is completed.

3) The Auditor picks out by meter or by asking the pc which symptom he has his attention on.

4) The Auditor finds an incident that had that symptom in it, dates it and runs in an incident as per R-3-R.

5) The incident picture (and symptom) erases or the auditor finds an earlier similar incident, etc., dates it, etc., until the pictures and symptoms are gone.

6) A new symptom is located on the Health Form by meter and its chain is erased. Each chain erased should leave the pc cheerful if not completely well.

7) Steps 4 and 5 are repeated.

8) A new symptom is located on the Health Form or by pc's complaint.

9) Steps 4 and 5 are repeated.

10) We go on doing this until the pc is suddenly well, smiling and happy and at that moment we at once desist.

11) We tell the pc that is the end of the session.

Note: If several sessions were required to do the above we start each new one by telling the pc it's started and end each session by telling the pc the session is ended.

Each session is written down as it is done and preserved for future correction or use.

The basic Health Form is available from orgs. Individual copies are made out for each pc and left in his case folder when handled.
