PASTORAL COUNSELLING HEALTH FORM

Revised 22 July 1969

(Part of HCO Bulletin 19 May 1969)

This form is done by an auditor. It is metered.

Don't try to handle items as the PC gives them unless an item BDs and the PC is interested. Otherwise assess after it is done. It also should be reassessed for additional items to run.

If the PC gives you a medical term (eg. Migraine Headache) as an illness, write it down in the first column then ask PC what the somatic is (eg. Pain in Head) write that down in the second column and note beside it any read. There is no rote command. Get somatics (not incidents) that can be assessed and run.

If the PC gives you a somatic don't then ask for the feeling of it. Just write it down in the second column with its read and carry one down the list. If the PC gives several somatics in response to one illness, write down each as a separate somatic. Assess only the second column. Do not assess multiple somatics (ie. several somatics as one item) and do not assess items that are not somatics. Do not assess narrative items. Do not accept or assess considerations.

Remember that an illness has more than one somatic to be audited out before it is wholly gone.

Persons medically ill should be sent for medical exam.

Cross those off that have been run until form is completely handled.

The end product of this form is entirely to pick out what to audit.
