

HCO BULLETIN OF DECEMBER 3, 1956

Training, London - Washington

B. Scn. - H.A.A. Techniques

Procedure emphasis:

Communication (Mimicry, Learning)  
Control (Absolute versions)

Commands:

All commands used in actual session are to be havingness scale commands, used with the above procedures.

The Havingness Scale is as follows:

Create  
Contribute to  
Confront  
Have  
Substitute  
Waste  
Substituted  
Had  
Confronted  
Contributed to  
Created

The rule of the havingness scale is that the auditor clears the preclear at any level by running the level just above it.

The techniques are objective with such form as "Look around ---".

The techniques consist of any command which gives one objective and one subjective target, or two objective targets.

Pay full attention to game condition.
