C O N F I D E N T I A L
INTENSIVE PROCESSES FOR USE IN OPERATION
CLEAR AND OPERATION STAFF CLEAR.

DISTRIBUTION: AllStaff Washington and London.

WARNING: These processes are not for outside release and not to be reprinted.
 Reason: They could not be duplicated by uncoached auditors and require
great auditing skill in use. If these are released in this combination
under the heading of "clear" invalidation of Scientology could result.

USE: On all staff members and HGC preclears. *Run short spotting*
where you would run
locational

1. CCH 0

Short 2. CCH 1 *spotting*

3. CCH 2

5 CCH 4

6. CCH 1 to 4 repeat as indicated

6.50 *mock up an unwanted future*
7. TR 10 (use throughout as indicated, use liberally. If it turns up a
somatic, flatten it. Use this (Notice that Object) as a bridge from
one process to another. *— use any time*
6.75 *— Psycho-somatic trouble use short spotting*
8. Recall something really real to you. Used a few times as a test. If it
cycles very early on test run it until it is in present time.
If pc has a very bad struggle with this, go back over CCH 1-4 again.
If only a few seconds to thirty seconds comm lag, proceed to 9. below.

...ative
...re or
9. Recall on unwanted object. Run, paying attention to cyclic aspect, until
fairly even in comm lag but not more than a couple of hours, preferably less. *must*
