HCO BULLETIN
Of August 5, A D 8
Issue 2 Revised

The basic locating question of the rock (primary abberative object) is:

"What is a people pleaser?"

It can also be run just like this: " How could you help a people pleaser?" as an item bracket.

Do not "kid around with " or invalidate this rock.

————————————

The new item bracket is as follows: It has been designed to preserve A--R--C and to be used in this exact order one command at a time.

The Rock Bracket:

How could a _____ help itself?

How could you help a _____?

How could a _____ help you?

How could I help a _____?

How could a _____ help me?

How could another person help a _____?

How could a _____ help another person?

How could others help a _____?

How could a _____ help others?

How could you help yourself?

How could I help myself?

How could you help me?

How could I help you?

Command words but not as a whole phrase are cleared often(every 3 brackets) and the pc is asked for his opinion only of the word "help" and the item. His answer is not challanged.

————————————————

Only ARC breaks can hide rock again after found - clear them well. CLEAR ALSO environmental ARC breaks on the rock between sessions.
