AN INSANITY QUESTIONNAIRE

The World Health Organization has issued the following questionnaire to determine whether or not a person is insane, and infers that if one answers "yes" to any of the following, he is insane and needs help.

- Are you always worrying?
- Are you unable to concentrate because of unrecognised reasons?
- Are you continually unhappy without justified cause?
- Do you lose your temper easily and often?
- Are you troubled by regular insomnia?
- Do you have wide fluctuations in your moods, from depression to elation, back to depression, which incapacitate you?
- Do you continually dislike to be with people?
- Are you upset if the routine of your life is disturbed?
- Do your children consistently get on your nerves?
- Are you 'browned off' and constantly bitter?
- Are you afraid without real cause?
- Are you always right and the other person always wrong?
- Do you have numerous aches and pains for which no doctor can find a physical cause?

Scientology organizations as the leaders in the field of mental ability are doing the only successful work in correcting such disabilities.

The first sweeping, low cost attack on mental disability is now under way in Scientology organizations with HAS Co-Auditing courses, now beginning on all continents.
