HCO BULLETIN OF APRIL 15, 1959

EMOTIONAL TONE SCALE EXPANDED

(Cancels Bull. of April 8)

There are several misemotions hitherto not placed on the ARC Emotional Tone Scale.

These are:

- 0.0 - Failure (Death)
- .2 - Regret (Being other bodies)
- 1.0 - Blame (Punishing other bodies)
- 1.3 - Shame (Responsibility as blame)

In running overt withhold straight wire stubborn cases run these emotions for some weeks of auditing and go upwards more or less in that order. Only when they come to failure as an emotion do they then get into apathy.

No case run on Overt Withhold Straight Wire can be said to be making progress unless misemotions turn on below 2.0. If the right button is reached by correct assessment, emotional reaction occurs in the running of that button.
