HCO BULLETIN OF JUNE 23, 1959

WHAT IS SCIENTOLOGY

Scientology is the science of human ability and intelligence. It was developed over a third of a century by Doctor Hubbard, American nuclear physicist and leading world authority on the subject of life sources and mental energies and structures. The Hubbard Association of Scientologists International assists and forwards his work and is a charitable non-profit organization with thousands of professionals who help people to help others. The HASI conducts free basic classes in Scientology and is authorized to train to higher levels for which however charges are made amounting to about five shillings an hour for personal coaching.

Professional processing in Scientology is available from the Association and many professional Scientologists in private practice.

Scientology is the only full study in the field of the mind developed in the Twentieth Century. Older Nineteenth Century studies such as psychology, developed by Wundt in 1879 in Leipzig, Germany, psycho-analysis, developed by Freud in 1894 in Vienna, Austria and psychiatry, developed through the Nineteenth Century in Russia, did not necessarily fail, since they provided data which permitted Scientology to begin.

Modern, kinder methods largely have taken the place of old brutalities such as shock, brain surgery and years of pitiless self revelation. Man no longer is thought of as a brute animal, charged with unconscious and cunning force.

A brighter more modern day has shed greater understanding on the problems of the mind and the nature of life and one need no longer shun mental healing practised by modern, civilized people.

Scientology, in less than a decade has become the world's primary study of Man and the mind and has today more offices and practitioners than all other nineteenth Century practices combined. Thus we must learn to bury the past of mental healing and look forward to our better day, the day of Scientology and new hope, the day of help without threat or harm, the day of a new and better civilization, born with the birth of a better understanding of Man.
