

TECHNICALLY SPEAKING

We have a whole world full of "victims." That's enough. We don't have to be victims ourselves. It's a scarcity we don't have to remedy. New definition" A Scientologist - one who is not a victim. We can make victims into people without Q and Aing.

Historical note" The whole Christian movement is based on the victim. Compulsion of the overt-act motivator sequence. They won by appealing to victims. We can win by making victims into people. It's time the inversion turned anyway.
