H.C.O. BULLETIN OF JULY 22, 1959

Actual Working Definition of
Psychology:

That body of practice devoted to the creation of any effect on living forms.

This is the totality of study. The ethics of the effect do not enter in this subject.

It is not a science since it is not an organized body of knowledge.

In actual use it is a dramatization of Axiom 10, wholly reactive.

In this wise the word can be used by Scientologists, and this definition can be used legally to prove Scientology isn't Psychology.
