H.C.O. BULLETIN OF JULY 22, 1959

An amendment to the Code of
a Scientologist, Clause No. 1.

1. To hear or speak no word of disparagement to the press, public, or preclears concerning any of my fellow Scientologists, our professional organization or those whose names are closely connected to this science nor to place in danger any such person.

This has been added as it has been discovered that certain personnel in central organizations are not responsible enough to refrain from making statements which are likely to endanger their Executives, Association Secretary and the whole organization.
