

HCO BULLETIN OF AUGUST 27th 1959

Success on the Special HCA/HCS Course

This is taken from a letter written by Jan and Dick Halpern to Ron.

"We're so full of good news this evening, just cant bottle it up.

Looks as if about a quarter of the 50 students are either MEST clear, or very close to it - entirely on muzzled co-auditing. One an Australian, seems to be past MEST clear and on her way to Theta Clear. Loads of IQ gains of 40 points from beginning of HAS to end of Special HCA/HCS.

They are really going out on a reach, too! John Galusha's only trouble has been getting ^{them} to stay for HGC work. They're so keen to get out and run HAS Co-Audits.

And here's the one we can hardly believe -. Over the last ten days has had five job offers, in hand, all of which he turned down in favour of going into Scientology full-time. He's suffering from a slight case of subjective reality - 18 hours OW SW on Pa, 18 hours S2, plus a little Op Pro by Dup. etc.

Nearly all of them have a solid 18 hours of S2 under their belts. Not flat, but many well along.

And, wonder of wonders, nobody asked for a change of auditors at any time!"

NORMA WEBB,
HCO SECRETARY WW.
