Subject Matter for Infraction Sheets
All Professional Level Scientology Courses

To make infraction sheets effective assign the following "topic" for infractions:

"List all overts, withholds, and 'covert' (making others guilty) on the personnel of this course--your pc, your auditor, the instructors, other students. Date and time each act listed as precisely as you can. State what responsibility you can assume in each case."

This has already been instituted for the Special HCS Course, DC, and at the Academy of Scientology. It cools chronic offenders like nothing else ever has.
