HCO BULLETIN OF APRIL 20, 1960

PROCESSES

Dick Halpern, in charge of the First South African ACC in Johannesburg, has sent a dispatch to Ron in which he states that Cause Elementary Straight Wire is most suitable for raising low tone arms, while Duplication Straight Wire is most suitable for lowering high tone arms. Dick has tested this on ACC students, and found the results excellent.

The command of Cause Elementary Straight Wire is: "What would it be all right for you to make forgotten?"

The command of Duplication Straight Wire is: "What would you permit to have happen again?"

HCO BULLETIN OF APRIL 20, 1960

SUCCESS IN AUSTRALIA

Eliz Williams, HCO Exec. Sec. in Melbourne, has sent the following dispatch to Ron:

"Last week ending April 9th was a bumper week in Australia.

HASI Melbourne topped L2,000  
AMCO Perth topped L1,107.

Scientology is booming here. Beryl (Beryl Newberry, HCO Sec in Perth) attributes AMCO's success directly to your 1960 Washington Congress held just recently in Perth."
