HCO BULLETIN OF APRIL 20, 1960

Dist Tech, Hats.

PROCESSES

Dick Halpern, in charge of the First South African ACC in Johannesburg, has sent a dispatch to Ron in which he states that Cause Elementary Straight Wire is most suitable for raising low tone arms, while Duplication Straight Wire is most suitable for lowering high tone arms. Dick has tested this on ACC students, and found the results excellent.

The command of Cause Elementary Straight Wire is: "What would it be all right for you to make forgotten?"

The command of Duplication Straight Wire is: "What would you permit to have happen again?"
