Franchise (Merry Christmas)

HAS CO-AUDIT RESUMED

I am testing a new series of processes I have developed to replace all former processes used on HAS Co-Audit.

Co-Audit stalled cases when:

- 1) HGC Processes were used (ruining the process for the pc because of its being run against heavy O/Ws still on case) and
- 2) Pcs on Co-Audit felt unable to get off their overts amid so much company (the processes would not bite and even upset cases since the pc was not free to run his witholds), and
- 3) Rudiments were not used or were badly used to the end of driving people away.

I have remedied these matters and as soon as I have any bugs out, probably by next week, I will release the new Co-Audit processes.

Co-Audit will only be permitted if the new routine is followed and no other. I dislike losing people we could help and messing up cases.

The new series by-passes the need of rudiments, O/W or HGC processes, yet gives, by a startling new advance and process type, very good results - better than the average obtained two years ago in individual auditing. I am sure they will keep the people coming and advancing.

L. RON HUBBARD.
