HCO BULLETIN OF MARCH 2, 1961

NEW PRE-HAV COMMAND

Here is a new command for Communication on the Pre-Hav Scale.

It comes as a surprise to me to find a new Comm process after Comm being in prominence 11 years, but that's what's happened. Also this process is forshadowed by the Code of Honor.

It replaces the Pre-Hav Command in HCO Bulletin of February 2, 1961 (dated March 9, 1961 from Saint Hill).

The basic command from which the others are derived is:
"RECALL NOT WANTING TO COMMUNICATE."

The full commands that can be run in sequence are:

"Recall not wanting to communicate."
"Recall another not wanting to communicate."
"Recall not wanting another to communicate."
"Recall another not wanting you to communicate."
"Recall another not wanting others to communicate."
"Recall a communication."
"Recall a no-communication."
"Recall a communication."
"Recall a no-communication."
"Recall a communication."
"Recall a no-communication."

The command structure, having so many possibilities, has only been partially sorted out. The first five commands of the above or the last six commands of the above or all of the above may be run. The last six, of course, handle loss incidents.

It just may be that the first line as a process underlies all withholds and gives later withholds power. This may then, just as a process, considerably ease the task set in getting off withholds on secretive cases.

Using all the first five lines in sequence is probably easiest on the pc, afterwards flattening the last six commands.
