HCO BULLETIN OF APRIL 30, 1961

CHANGE BRACKETS AND COMMANDS

The basic commands of CHANGE form a series of brackets.

The basic curve of CHANGE compares to the CYCLE OF ACTION.

Therefore, the basic versions of CHANGE would consist of Change, No Change, and Failed Change.

The Standard bracket is a five way bracket. The general form of this is as follows:

You----- Terminal
 Terminal-----You
 Terminal-----Another
 Another-----Terminal
 Terminal-----Terminal

Change as a five way bracket would be somebody or something as the terminal (whichever falls the most on a meter) and:

- "How have you changed something?"
- "How has something tried to change you?"
- "How has something changed another?"
- "How has another changed something?"
- "How has something changed?"

or:

- "How have you changed somebody?"
- "How has somebody tried to change you?"
- "How has somebody changed another?"
- "How has another changed somebody?"
- "How has somebody changed self?"

15 Way Bracket

(something or somebody)

- | | |
|---|--|
| 1. "How have you changed something?" | 9. "What has something changed?" |
| 2. "How has something tried to change you?" | 10. "What has changed self?" |
| 3. "How has something changed another?" | 11. "What have you failed to change?" |
| 4. "How has another changed something?" | 12. "What has failed to change you?" |
| 5. "How has something changed?" | 13. "What has something failed to change?" |
| 6. "What have you not changed?" | 14. "What has failed to change something?" |
| 7. "What has not changed you?" | 15. "What has failed to change self?" |
| 8. "What has changed something?" | |

The above commands are run consecutively as one process. This process is the Basic Release Process.

Another version:

- "What change have you avoided?"
- "What change have you sought?"
- "What no change have you avoided?"
- "What no change have you sought?"
- "What failed change have you avoided?"
- "What failed change have you sought?"

Another version:

- "Recall a change."
- "Recall a no-change."
- "Recall a failed change."

Another version:

Sort out "Think" or "Get the idea" by the meter's reaction. Use one that produces the most fall.

- "Think (Get the idea) of a change."
- "Think of a no-change."
- "Think of a failed change."
