BULLETIN CHANGES
(Changes in Model Session, HCO Bulletin
June 23, 1962, HCO Bulletin May 3, 1962
and HCO Bulletin July 3, 1962)

(Note: Make changes on your copies of HCO Bulletin May 3, 1962, HCO Bulletin
June 23, 1962 and HCO Bulletin July 3, 1962 so that students passing these bulletins
do not have to give the outdated data in their Theory Examination of HCO Bulletins
May 3, 1962, June 23, 1962 and July 3, 1962. This HCO Bulletin July 4, 1962 is to be
passed also in Theory as it gives Why.)

HAVINGNESS RUD
The room rudiment is dropped from Model Session in the Beginning Rudiments but
remains in the End Rudiments.

Abolish its use in Beginning Rudiments. Retain its use in End Rudiments in all
HGCs, Academies, staff auditing and the Saint Hill Special Briefing Course.

The room rudiment spoils the evenness of Repetitive Rudiments and as often as
not takes the pcs attention out of session.

MISSED WITHOLDS
The question: "In this session have you thought, said or done anything I have
failed to find out?" is to be used in all Model Sessions as a Random Rudiment to be
used in strict accordance with HCO Bulletin May 3, 1962, Missed Witholds. It remains
also as part of End Rudiments.

The word "about" is deleted from the end rudiment question as it is unnecessary.

Change your copy of HCO Bulletin May 3, 1962 to give the above as the standard
command.

This is used whenever the pc starts to get tense or tries to explain urgently.
Don't let the pc get into a full ARC break. See it coming. But if pc does get into
a heavy ARC break it is of course used. It means the auditor was slow observing.

Its use is always repetitive as in any other Repetitive Rudiment.

The "said" is added to prevent upset from poor TR4.

OVERT/WITHOLD
At the start of any session, after starting the session, General O/W may be
used on any pc who is feeling ill or misemotional before session beginning by reason
of heavy restimulation or acute PTPs. This is run only until the pc feels better and
has cycled to present time. It is not run until both questions are nul (as given
in HCO Bulletin of July 3, 1962).

Use the cyclic type ending on the process.

Follow this action by Repetitive asking of the Missed Withold Rudiment above to
prevent a missed withold from occurring.

END WORDS
The E-Meter has two holes in it. It does not operate on an ARC broken pc
and it can operate on the last word (thought minor) only of a question. Whereas
the question (thought major) is actually nul.

A pc can be checked on the END WORDS OF RUDIMENTS QUESTIONS and the charge on
those single words can be made known and the question turned around to avoid the last
word's charge.

Example: "Are you willing to talk to me about your difficulties?"

The word "difficulties", said to the pc by itself gives an Instant Read.
Remedy: Test "Difficulties". If it reads as itself then change the question to:
"Concerning your difficulties, are you willing to talk to me?" This will only react
when the pc is unwilling to do so.

Caution: This trouble of END WORDS reading by themselves occurs mainly in the presence of weak TR1 and failure to groove in the question to a "Thought Major". With good TR1, the END WORDS read only when the question is asked.

IN PRACTICE you only investigate this when the pc insists strongly that the question is nul. Then test the end word for lone reaction and turn the question about to make it end with another end word (question not to have words changed, only shifted in order). Then groove it in and test it for Instant Read. If it still reacts as a question (thought major) then of course, it is not nul and should be answered.

CLEAN

Change HCO Bulletin July 3, 1962 to read, "Do not pay attention to any reaction consequent to asking "Do you agree that that is clean?""

Trying to handle a reaction to this second question is too involved for ordinary handling. If the main question reads nul, ignore a read on "Do you agree that is clean?"

DOUBLE CLEANING

"Cleaning" a rudiment that has already registered nul gives the pc a Missed Withold of nothingness. His nothingness was not accepted. The pc has no answer. A missed no-answer then occurs. This is quite serious. Once you see a Rudiment is clean, let it go. To ask again something already nul is to leave the pc baffled - he has a missed withold which is a nothingness.
