**CCH ANSWERS**

The following queries and my reply are useful in the CCHs.

Ron from Ray = 1/8 = 335L

Thanks for Telexes 233L2 and 334L2. That's fine.

Some queries have come up about CCHs. Could we have the latest stable data on

1. When is a physical origination picked up—after command is executed and before acknowledgement, or after acknowledgement?
2. Does one pick up by saying—'How are you doing?' 'What happened then?' or 'I noticed—so and so—happened. What's going on?'—or is there any other methods that we don't have and which is better than any of these?

Love  
Ray

Ray from Ron = 15.30 = 2/8 = 335L2

1. When it happens.
2. Only by a two way comm query like "What's happening?"

Never designate the origin.

Don't make a system out of queries. Three commands nicely done is flat.

Don't take spoken data from PC about somatics as a reason to keep on.

Also the process that turns something on turns it off.

Love  
Ron.
