HCO BULLETIN OF AUGUST 21, AD12.

3GA
LINE WORDING

(Changes all earlier Policy Letters and HCO Bulletins on Lines, 3GA)

Lines must read after the goal is checked out and before listing.

The optimum line wording is probably as follows:

LINE ONE: WHO OR WHAT WOULD WANT (goal).

LINE TWO: WHO OR WHAT WOULD OPPOSE (goal ing form for verb).

LINE THREE: WHO OR WHAT WOULD OPPOSE OPPOSITION TO (goal ing form).

LINE FOUR: WHO OR WHAT WOULD NOT WANT (goal).

The line must read on the pc, firing like the goal, each time.

LISTING SESSION

The goal must be made to fire at least at the beginning of every listing session.

The button "Suppress" can be too heavily charged to read at first on a goal unless it is repetitively used as opposed to fast checking. All other Mid Rud buttons can be fast checked.

DURING LISTING

Before listing any one line, the goal should be made to fire and the line made to fire, both by the Tiger Drill (HCO Bulletin August 1, 1962). The line is then listed. This may be found more time consuming than time saving in listing but is a good thing to do.
