SAINT HILL SPECIAL BRIEFING COURSE

QUESTIONS ON HCO BULLETIN NOVEMBER 23, AD12

INSTRUCTIONS

- 1) Read HCOB November 23 AD12 carefully.
- 2) Take this question list and find the answers on the bulletin and write them down on a separate piece of paper.
- 3) Lay the bulletin aside and go through the questions again and write down as many answers as you can. Then find the answers to the questions you answered wrong or didn't answer at all - write them down.
- 4) Repeat 3 until you can answer all the questions correctly without reference to the bulletin.
- 5) Go to Theory Supervisor for a check out.

---

HCO BULLETIN NOVEMBER 23, AD12.  
ROUTINE TWO-TWELVE

- 1) On whom is this procedure to be done?
- 2) When is it to be done?
- 3) If it is done correctly what will it do?
- 4) What is the slow gainer and slow student?
- 5) How powerful is it?
- 6) What is the solution similar to?
- 7) What % do these skills encompass?
- 8) In what circumstances will these clear slowly if at all?
- 9) What are the progressive data leading to this breakthrough?
- 10) What is the conclusion?
- 11) What has suddenly become a matter of vital importance?
- 12) What is it now a question of?
- 13) What, therefore, do we have to have?
- 14) Define a Rock-slammer.
- 15) What will happen until this item is located and opposed?
- 16) Where is Routine 2-12 method taken from?
- 17) By whom will this routine have to be learned?
- 18) What does it include and not include?
- 19) What is step 1, 2, 3.
- 20) On Step 3, which item are you going to select?
- 21) Supposing item produces a good Rock Slam?
- 22) Suppose you get two RI?
- 23) What is step 4?
- 24) In what circumstances are steps 4, 5 & 6 unnecessary?
- 25) Suppose the RS vanishes?
- 26) What must you beware of whilst listing?
- 27) Where does the real R.S. item you want come from?
- 28) What happens if pc stops and refuses to go on?
- 29) What are you going to mark and note whilst listing?
- 30) What is step 5?
- 31) What do you do if a dirty needle turns on?
- 32) You eliminate all but how many items?
- 33) What is step six?

- 34) Which items do you select?
- 35) Suppose you get two items on the list - what do you do?
- 36) What is Step 7?
- 37) If pain turns on what do you do?
- 38) If sensation turns on what do you do?
- 39) What should happen?
- 40) If the item Rock Slams what do you call it?
- 41) If an item RSs whilst being listed need it R/S whilst being nulled?
- 42) How can you get the RS back?
- 43) What is Step 8?
- 44) If a RI turned on pain what do you list?
- 45) If a RI turned on sen. what do you list?
- 46) How do you complete the list?
- 47) What should your list be free from? How do you keep it so?
- 48) Suppose you have a coterm?
- 49) What is Step 9?
- 50) What is Step 10?
- 51) What is Step 11?
- 52) What must you be sure of?
- 53) What do you get PC to do in this step?
- 54) What is Step 12?
- 55) If you have any dirty reads what do you do?
- 56) If you have no dirty reads what do you do?
- 57) What is the only list tested again?
- 58) This action (R2-12) is the only action which will.....?
- 59) What is every such pc?
- 60) Why is this?
- 61) What is pathetic?
- 62) What does this disagreement bring about?
- 63) Will any other process get at this key problem?
- 64) What doesn't this technique try to do?
- 65) When will the problem be known to the PC?
- 66) Does the Auditor have to know about it?
- 67) What do you do with these two items?
- 68) What could be done with them?
- 69) What is best?
- 70) How will the pc benefit?
- 71) What is the biggest error that will be made?
- 72) What is the second source of error?
- 73) What will the unschooled auditor do?
- 74) What will happen?
- 75) What is the rule?
- 76) What does the average list run to?
- 77) When do you leave the basic list of Step 1?
- 78) How do you ask questions for the list?
- 79) What is list 1?

- 80) Should it be done again - when?
- 81) What is list 1A?
- 82) What must the general question contain?
- 83) What is list 1B?
- 84) For whom was this list developed?
- 85) What is list 1C?
- 86) What is list 1D?
- 87) What is list 1E?
- 88) What is list 1F?
- 89) What is list 1G?
- 90) What must you be sure of in list 1H?
- 91) In all the lists what must you be sure of?
- 92) In what order do you use the lists?
- 93) How often do you do the first step with Scientology items?
- 94) Why is this list used for all 12 steps again and again?
- 95) Where can further steps be got from?
- 96) What is the rule?
- 97) What are you doing in getting Reliable Items and their opposition?
- 98) Why must you never fake an item?
- 99) Why must you never fail to record on the line plot?
- 100) What do you occasionally get off a list?
- 101) What do they do?
- 102) What action should you take?
- 103) What does R2-12 (With what) give the HCA/HPA?
- 104) What shouldn't you cover up?
- 105) To accomplish 3GAXX for Rock Slammers what must an auditor be drilled and examined on?
- 106) What skill is this declared? What isn't included?
- 107) If this bulletin is studied and well drilled what will happen?
- 108) On whom must this be done and why?
- 109) What is the PC's biggest W/H of all?
- 110) What variations are allowed?
- 111) How often should the R2-12 be tested?
- 112) You do R2-12 on whom - when?
- 113) If a PC has overts on Scientology etc., what won't happen?
- 114) What does R2-12 remove?
- 115) What are the most insidious by-passed items and what do they do?
- 116) Give the Fast step resume?
- 117) What do you not give students - why?
- 118) What do you put after R2-12? Why?
- 119) When do you give student further heavy instruction on R2-12?
- 120) What is the point here?
