HCO BULLETIN OF MAY 26, AD13

ROUTINE 3
LINE PLOT.

Corrections to HCO Bulletin May 12, AD13 Line Plot, First Series of Helotrobos Implants (43 trillion).

The RIs indicated on the corrected Line Plot form are the exact RIs that will be found. Do not accept any variation.

The Line Plot is being released, corrected, in a form for Auditing Use as HCO Technical Form 26 May AD13, available as a convenience to auditors from HCOs in lots of 30 complete Line Plot forms for \$3.00 or £1 plus postage. Address the HCO Book Department.

It is important to use a corrected Line Plot without variations or score outs as it causes the pc to suppress and reactivate suppressions in the incidents.

The corrections are as follows:-

Items 11, 33, 39, 41, only capitalized word correct. Scrub words in small letters.

Items 43, 45, 49, 53. Remove centre syllable "FUL" and "ED".

Item 63 "Unwantably".

Item 101 "Vitalable".

Add pair 141 A, 142 B, "Unwantable", "Nix Unwantable".

Item 174, correct to "Isn't ever".

Item 176, correct to "sees".

Item 186, Add "The".

Item 187. Importances (plural).

Items 201, 203, 205, 209, 225. Scrub the parenthesis on each as incorrect. The capitalized items are correct on these.

This line plot has now been verified in several GPMs and found unvarying in the first series.

If you permit an incorrect RI the pc will eventually stack up on that RI GPM to GPM.

All ARC Breaks are caused by By-Passed RIs, GPMs or incidents.

An RI can be By-Passed by being left undischarged, by being cleanly missed or by being incorrect.
