SCIENTOLOGY REVIEW

(HCO Secs, take up at a Staff Meeting.  
Field Auditors, take up at group meetings.)

Exactly where are we technically, personally and organizationally?

It may be of some surprise to you that we have just about arrived. We've been so long on the road that some fainter hearts have begun to despair and less high case levels have begun to gloom.

Since last October I have been cracking through trying to get there before we were got.

It now is obvious that we have made it and even if we were hard hit socially or politically we would still make it. For we have the data.

I have not had time to get it all to you yet, but the data is now assembled for O.T. for everyone who can be audited at all. You already have most of it.

On the various PTPs of Scientology we have had some very significant wins as follows:

1. The discoveries about Time and the Tone Arm (HCO Bulletin of July 28, AD13) related to case levels tells us if a case is winning, why it isn't winning and how to make it win, and gives us far less worries as auditors auditing cases. For some time now, overlooking four score of cases, many very rough, I have been breathing easy. And they're all winning.
2. Getting cases to RR on GPMS is entirely a matter of auditing those cases who don't on current basic processes until they do. So it isn't a worry about getting the case to RR. It's only how to get the case to run with TA action and get high enough to RR and run GPMS. We have the patterns and technology needful now.
3. ARC Breaky Cases. The ARC Break Assessments correctly done finish the problem of the consequences of ARC Breaks and puts the Auditor at cause over ARC Breaks.
4. Natter. Persons who get auditing and natter, staff members who snap and snarl, bad morale, all wrap up in the ARC Break Assessments. This, done weekly in any group of group members, clearing every line, restores a theta atmosphere.
5. Incredulity of our data and validity. This is our finest asset and gives us more protection than any other single thing. If certain parties thought we were real we would have infinitely more trouble. There's actual terror in the breast of a guilty person at the thought of O.T., and without a public incredulity we never would have gotten as far as we have. And now it's too late to be stopped. This protection was accidental but it serves us very well indeed. Remember that the next time the ignorant scoff.
6. The cold war has gotten less threatening, differences are less violent. We have had the time we needed.
7. Government attacks have entered a more desultory stage. Meters will go to jury trial eventually and we will certainly win. The U.S. Government Attorney handling the case became terribly ill and had to resign it.
8. Economic Problems. In organisations gross income is generally on the increase throughout the world, and shows no signs of dwindling and all this in the face of bad press. Personal income depends upon steady organizational gains and more positive results on pcs. Future personal income is without ceiling.
9. Personal States of Case. If you heed HCO Bulletin of July 28, AD13 and are getting good Tone Arm action on any process you will eventually make O.T. O.T. is wholly a matter of consistent Tone Arm motion, session after session, not the significance of what is run.
10. State of Training as Auditors. Although I would like to see more auditors trained at Saint Hill, general training has improved and training data is complete. Shortened training time will soon be a reality. A new positive goal for HPA/HCAS will make more good auditors. I feel very good about general auditing ability. I recently summed up the basic skills of auditing and find that over the years we have been working right along and winning on training. All training done has been to the good. Changing technology has not influenced the basic skills and forthcoming material follows the pattern in which we have been trained.

OTHER PROBLEMS

Solutions unexpectedly leaped up in fields where we were only vaguely aware of problems.

We bought an awful lot of time with the discovery of the exact nature of between lives implants and how it's worked. Using this data it is possible to keep any Scientologist from ever getting another one of those implants. As the general course of living is therapeutic, it takes violent implants such as Earth people get at every death to keep people unaware of former lives and aberrated. Just by omitting those implants and using their reporting technology to keep in touch amongst ourselves, we would salvage the lot in a few hundred years in any event. Our data is too widely disseminated to be re-collected and burned.

And just the other day I was personally looking over their shoulders.

World clearing is possible without extensive Auditing if we just keep our own show on the road and keep track of each other.

This was a break-through I didn't expect. And it's all ours.

The discovery of false pasts and futures was also a bonus. For it means more TA action on more cases and faster clearing. It's doubtful if ordinary track ever hurt anybody.

SUMMARY

All we've got to do is keep going as we are for things to improve now.

The only thing which could slow us down is our own self-created dissidence. All we have to do is do our jobs and keep the peace and we've got it.

The make-break point is behind us. Ahead are only better days, improving little by little, day by day.

We've made it over the worst part.
