HCO BULLETIN OF AUGUST 11, 1963

ARC BREAK ASSESSMENTS

In a session don't ever do an ARC Break Assessment until the pc has given up trying to untangle it. This particularly applies to R3R and 3N.

DATES R2H

Don't ever date anything for the pc until the pc has completely given up trying himself.

DON'T USE METERING, ARC BREAK ASSESSMENTS, DATING, or incomprehensible or new commands to CUT THE ITSA LINE. Let it run. Help only when it's stopped.
