TECH PREPARATION
FOR HCO POL. LTR. 21 AUG. AD13.

PROJECT 80

THE ITSA LINE AND TONE ARM

The HCO Area Secretary should cause to be played to staff the SHSBC LRH lectures of:

14 August AD13
15 August AD13
20 August AD13
21 August AD13
22 August AD13

These lectures contain all the material necessary for great technical improvement in the organization in both training and processing and particularly on the staff co-audit.

Public Dissemination via PE and outside unskilled co-audit is resolved in these lectures.

A great many questions, complications and additives can grow up around the Itsa Line so as to amount to several brands of Scientology. These are taken up in great detail in these lectures.

This is part of a programme to bring home to Central Organizations the current ease of getting acceptable results in the Academy, on the HGC and in the Co-audit by use of only the Tone Arm and Itsa Line. And carry forward the groundwork for outside co-auditing and broader dissemination.

We are building all future processing, training and dissemination on the very firm foundation of the definition of an auditor (one who listens), the Itsa Line (listen to the preclear) and the solution of problems (the preclear is always right). This communicates with extreme ease and simplicity.

We are building all professional auditing on the Itsa Line, plus directing pc's attention plus the Tone Arm.

We are building all top skill auditing on the Itsa Line, directing the pc's attention to what must be audited to make clear and O.T. and the Tone Arm.

These tapes contain all the vital basic information.

If you are having any difficulties with income, results, staff co-audit or public dissemination, the broad technical data contained in the Itsa Line, ARC Break Assessments and Tone Arm Action will rapidly resolve them.

This begins a new era for Scientology.

Get the data known to staff by holding these tape plays for me, at least two of these tapes a week, with all staff attending.

Stressing any other data or reviewing any other material, playing any other tapes broadly to staff or students at this time will retard your forward progress by overloading the line.

So I'm counting on you as HCO Area Sec to take care of this for me and keep staff attention squarely on:

- (1) The Itsa Line
- (2) The Tone Arm
- (3) Proper use of ARC Break Assessments
- (4) Directing pc's attention adroitly.

This does not affect what we already know and does not outmode such things as metering, auditors code, etc.

If you take care of this one for me on the technical end, you'll get a lot of gains and prosperity.
