HCO BULLETIN OF JANUARY 21, 1964

METER LEVEL WARNING
HOW TO KILL A PC IN LEVEL 5.

Breath and Body Motion
(All levels)

Body Motion, sudden expulsions of breath, emphatic gestures, shouts and foot squirmings and anger can make the TA move down and can cause surges that can be mistaken for reads, even rocket reads. Not knowing this can falsify an assessment or leave the bank undischarged.

In all assessing or meter running make sure it was the bank the meter read, not Breath or Body Motion.

How to kill a Pc in Level 5
(taken from LRH instruction to students
on Saint Hill Special Briefing Course)

What's all the shouting on Items in "R3N"? Items won't read unless pc quietly random lists. I think you've forgotten unwritten random listing as how to make RRs appear on the Implant RIs. Get a random list of a few the pc thinks of. Then the Implant RI will read easily with no shout.

This datum gets lost every few months. Keep it around.

Pc's sudden expulsion of breath can cause an RR too. Maybe you're getting no charge off.
