typographical errors. Corrections in  
script.)

SCIENTOLOGY III & IV

JUSTIFICATIONS

The reasons overts are *not* overts to people *are* JUSTIFI-  
CATIONS.

If you ask a pc what overt he has committed, and then ask  
him why it wasn't an overt, you will find that it wasn't an overt  
and therefore didn't relieve as an answer because it was all  
justified.

One of the powerful new overt processes (as given by me on  
recent tapes) is:

1. In this lifetime, what overt have you committed?
2. How have you justified it?

(2) is run flat until the overt given in (1) is knocked out.  
Then a new overt is found and (2) is done thoroughly and repeti-  
tively on it.

This is not a new form of process but these are very new  
commands.

Note it is not an alternate command. Note that a cycle of  
action is completed with question (2) *on* (1) before you leave off  
processing this particular overt. Only when you have all the  
justifications and cognitions possible on (1) do you ask for a  
new overt from the pc.

This cracks the general irresponsibility the auditor is met  
with in trying to get O/W to benefit the irresponsible case.

"In this lifetime" is added because the pc who can't face  
his overts not only justifies them but goes way back into his  
past lives to find overts instead of getting off the simple  
this-lifetime ones.

This is not the same process as plain "What have you done?"  
in which any action done by the pc is accepted as the answer.

However, in simple general O/W you will find the pc is not  
answering the auditing question but is answering "What have I  
done that caused my trouble?" The pc is running "What action  
that I have done explains what has happened to me?"

Therefore, running justifications off is a further south  
process than any earlier version of O/W and is very effective  
in raising the cause level of the pc.
