HCO BULLETIN OF 23 AUGUST 1966  
Issue II

CLEAR TEST

The following original despatch on the first  
clear test is of historical and technical interest:

LRH  
A/Op Wocser  
LRH Comm SA  
③ LRH Comm NW.  
DEAR RON.

Auton request cable this info. 9.3.66  
① ORG SEC WW  
② ES COMM QUAL  
from Active Qual Sec

Its with greatest joy and  
happiness I have to report to  
you that John McMaster has  
passed The Clear Check and  
no doubt exists that he has  
erased his bank completely and  
it's gone.

There is no meter reaction  
at all, meter tested before check  
by D/Review, TA at 3.0 floated  
down to 2.8 on request he  
move the needle by postulate.

Further tests, no reactivity  
and no bank. His presence

in the environment brings about  
a calmness and safety.

~~He~~ He looks excellent.

His declaration as Clear  
has been issued by Cuts and  
Awards and this has found  
complete acceptance and agree-  
ment and a great raising  
up of ~~the~~ spirits at  
Saint Hill.

Thank you for the  
honor and privilege of  
checking out the first  
Clear.

Love

Anton.
