HCO BULLETIN OF 30 NOVEMBER 1966

ASSESSMENT FOR SERVICE FACSIMILES

The location of service facsimiles requires a proper listing question, the absence of which can lead to missing the actual service fac or overrunning a lower release grade.

Of the assessment methods, the following should probably be ruled out as an overrun of earlier grades or on the basis of getting a free needle on a previous grade:

- 1) Slow assessment with ITSA (overrun Grade 0)
- 2) Assessment by problems (overrun Grade I)
- 3) Assessment by parts of existence (overrun Grade 0)

This leaves as acceptable methods:

- 1) "In this lifetime, what do you use to make others wrong?"
- 2) "In this lifetime, what do you think your service facsimile is?"

(for a Scientologist trained to Level IV)

- 3) "In this lifetime, what would be a safe solution to?" (the blank having been obtained by questions given on the tapes to find either a hidden standard or hidden problem.)
- 4) Assessment of a prepared list, using level found in "In this lifetime, what have you (prehav level

The point being not to start out at the beginning by listing a question which OBVIOUSLY WILL NOT RESULT IN FINDING A SERVICE FAC, in which instance the rule of declaring the grade on a floating needle obtained on the list could not possibly apply
