HCO BULLETIN OF 4 OCTOBER 1968

Class IV

RUDS

Pcs (and students) often don't know one rudiment from another. They call PTPs ARC Brks and all sorts of weird answers. ARC Brks become PTPs, etc.

They do NOT KNOW what the question is.

Therefore on a green pc or student it is best to clear the commands.

And it is VITAL to teach what these mean and do them in clay on an VIII Course.
