

HCO BULLETIN OF 3 FEBRUARY 1969

Remimeo

TRIPLE GRADES

FLOWS

There are a great many potential flows. These are covered in greater detail in earlier work.

In Triple Grades the following are the only flows used:

- (1) Self → Another
(2) Self ← Another
(3) Others ← Another
Or
Another

In an introverted (going into) type process

1 A for Self

1 B for Another

1 C for Others

Or

A mix of the two.

As the patterns of an individual are in actual fact the same in all cases, it is the type of process rather than the type of pc which regulates the flows.

Intensity of one or more "legs" of the flow will be found to vary from pc to pc. One pc has a strong inflow, weak outflow and very weak others flow. Another has a strong outflow. Another is all wrapped up in others with no real attention to self.

The wording of the STANDARD commands of Triple Grades, (Subzero and Lower Levels) take care of these imbalances. No further attention is necessary by the auditor.

The auditor will find that all this reflects on his work sheet by different lengths of time to run different flows.

By FLOW is meant an impulse or direction of energy particles or thought or masses between terminals.

It is essentially a 3 terminal universe in actual fact. The discovery of this led to Triple Grades.

There is more data on the 3 terminal universe in material on the THIRD PARTY LAW. This is not necessarily important - either the 3rd Party Law or, that its a 3 terminal universe - to the auditor in running the processes of Triple Grades. He should however have some idea of flows. Very intricate and numerous flows can be isolated. Triple is the fundamental and what is used in normal auditing.
