Course

HCO BULLETIN OF 8 MAY 1969

**REPETITIVE STUDY**

The following study datum has emerged and been proven beyond any question.

**NUMBER OF TIMES OVER THE MATERIAL EQUALS CERTAINTY AND RESULTS.**

Thus on the Standard Dianetics Course the student is required to go through the checksheet at least 3 times before auditing. If he still can't apply the data with complete certainty, he should go through the materials again and again until he can.

Study drills also use this datum. In study drills the student studies the bulletin up to ten times through, doing something to show and increase his understanding after each time through.

**OWN CASE WINS**

Further-

**RESULTS IN THE STUDENTS OWN CASE IS THE GUARANTEE OF SUCCESSFUL APPLICATION BY THE STUDENT.**

Use these two data.
