DATA SERIES

The HCO Policy Letters called the Data Series sometimes bring about a headache or upset in a student.

This occurs due to the list of five out-points.

The cure is to assess the basic out-points (sensibly expressed as a list). Then handle by 2 way comm on what read.

It will be found that this will clear up the trouble.

A special list of these is being made ready for Hubbard Consultant use.

The exact procedure is:

1. Assess a prepared list of out-points for best read.
2. Clean up the item with 2 way comm to F/N.
3. Assess a prepared list of Plus-points and take the best read.
4. Discuss with 2 way comm to F/N.

If there is no F/N, reassess the same list again for the best item now.

The lists are unlimited in use. The expansion of the prepared lists of out-points and plus-points to get all variations gives one an almost unlimited process.

Deep, long term upsets or present time disturbances can both be handled in this way.

While further data will be released on this subject, it is necessary for C/Ses to know an occasional consequence of study of the Data Series.

The tech belongs in the HC study materials.
