HCO BULLETIN OF 13 JANUARY 1971

EXTERIORIZATION

On reviews of field given Exteriorization intensives during the past year, I found many cases had been flubbed.

On researching this I found the following:

1. The Remedy was being used as an effort to Exteriorize people. People exteriorize in any normal auditing. What was needed was a remedy to be able to audit them thereafter without driving their TAs up.
2. Auditors evidently skimmed their HDC Courses and did not know WHY one went to an earlier beginning or earlier incident. Thus they didn't know why you had to run Interiorization.
3. HCO B 22 Mar 69 Exteriorization and High TA must have been studied only for the rote commands. The theory of it was not studied.
4. Common Dianetic goofs got in the road of the rundown, the auditor failing to repeat the chain in asking for an earlier incident, i.e. "Is there an earlier incident containing a head pain?"
5. The Exteriorization intensive was being stretched over several sessions. As only it can be audited, between sessions PTPs etc, would intervene. So it had to be done in one session.
6. Clearing the command was flubby and the pc often thought Interiorization meant "being in and trying to get cut" and so the wrong end of the incident (the end) was being run.
7. People who hadn't been exterior at all and whose TAs were normal - not high - were being run on it.
8. It was being sold as a special rundown to exteriorize people, not just to enable them to go on being audited.

The number of Exteriorization Rundown flubs is excessive.

Therefore new HCO Bs and a new pack have been issued. These include

HCO B 4 Jan 71 Ext & High TA REVISED which contains the theory and NEW COMMANDS nobody can goof.

HCO B 6 Jan 71 Starrate Checkouts for Exteriorization Intensive.

HCO B 5 Jan 71 Going Earlier in R3R and Exteriorization Intensives.

The glaring outness is Dianetic R3R skill. An HDC who can't run a flubless Dianetic session and get all three flows down to F/N studied in doubt, audits in doubt and ought to be in a condition of doubt until he retreads and actually reads the text and does the drills. Dianetic R3R is just too easy to be flubbed.

After patching up many of these done in the field I became very alert to the state of training. A new Course Supervisor Course has been done and is being issued.

Obviously, auditors are no longer required to be starrated on new materials before they audit them. This omission must be remedied at once. NO AUDITOR MAY AUDIT MATERIALS OR APPLY HCO B§ ON WHICH HE HAS NOT BEEN STARRATED.

No HGC or C/S may order an auditor to run a process if that auditor has not been starrated on its theory and practical first.

As for Dianetics, auditors who cannot routinely carry a chain to an F/N VGI Cog and erasure running R3R may not retain his certificate unless retreaded and his HDC is suspended until he is retreaded.

For people to goof up using these clean positive tools is inexcusable.

The results are there to be obtained. WE OBTAIN SPECTACULAR POSITIVE RESULTS WITH THESE SAME MATERIALS DAILY WHEREVER THEY ARE ACTUALLY STUDIED AND APPLIED.

Please correct flubby auditing wherever you find it. Auditors must be checked out and drilled on new materials. Courses must be precisely taught. People who flub must be crammed until they don't. And those who still flub must be retreaded.

The materials when applied produce great results. When they are not applied they don't.

SO APPLY THEM!

CORRECTLY.
