DIANETICS AND EXT RD REPAIR LIST

(Revises L3B.)

This list includes the most frequent Dianetic errors. Use up to Question 28 as the usual use. Then if the situation does not solve, use the rest of the list.

A high or low TA and a bogged case can result from failures to erase a chain of incidents.

DO NOT ATTEMPT TO REPAIR A CHAIN OR ENGRAM WITHOUT USING THIS LIST as it can have different or several errors.

REMEMBER THAT YOUR PC MAY NOT BE SUFFICIENTLY TRAINED TO UNDERSTAND ALL THESE QUESTIONS: IF ONE READS AND HE SAYS HE DOESN'T UNDERSTAND IT, CLEAR IT AND REASSESS (don't explain it and take it as it read on a misunderstood not on a fact).

RUNNING PCS ON DIANETICS WITHOUT A FULL AND COMPLETE DN C/S 1 INDOCTRINATION IS A FOOLISH ACTION.

TAKE ANY READ FOUND TO F/N BY INDICATION OR FULL REPAIR OF IT.

1. The Item or symptom being run had no charge on it. _____
Indicate it was a false read, spot when it was run, where it was run and get an F/N.

2. The same incident or pictures were run before. _____
Indicate that an overrun has occurred. If no F/N spot when, spot where and get an F/N.

3. A session was started on a new item while an old one was not erased. _____

TA would have been high on an old item or the Interiorization Rundown and the auditor went on anyway with a new item. Find what the old item was and repair it with a new assessment on the earlier chain. Indicate fact to the pc.

4. The item being run described just one incident. _____
(Narrative Item.)
Find the somatics, emotions, attitudes of the incident and run them as chains as per standard Dianetics.

5. The incident had an earlier beginning.
Move the pc to the earlier beginning and proceed as per Standard Dianetics R3R. _____
- 5a. *There was an earlier misrun incident restimulated. This would be an incident that was never resolved (erased) and to handle it: Find out what it was and do an L-3RC on it.* _____
6. There were earlier incidents stirred up and not erased. _____
Find what chain or item and run it to completion by R3R. This condition sometimes leaves pc with the ARC Brk effect of by-passed charge and is a basic example of by-passed charge.
7. Stirred up earlier unrun incidents.
(Same as 6.) _____
8. When running one item went into another instead and ran a different set of pictures. _____
Jumped chain.
9. When you said it was erased it still had a mass. Auditor does ABCD again on the item one or two more times to get BD F/N. If TA goes up ask for earlier beginning or earlier similar on same incident to F/N. _____
10. You were protesting. _____
Find out what was being protested and handle it.
11. You were still taking drugs or medicine that had not worn off. _____
12. You had a misunderstood on the commands. _____
Clear them up.
13. You had a misunderstood on what you were supposed to be doing? _____
Clear it up, get it done right.
14. A wrong item was given. _____
This could also be a listing error. If not sure what it is, shift to L4BR. Otherwise find it and indicate it as a wrong item and that all other actions connected with it were wrong. You can also date the session in which it occurred. And you can also find earlier similar wrong items.
15. Has an earlier Dianetic upset been restimulated? _____
Find the earlier one and straighten it out. Also it can go back 2 or 3 more earlier mix-ups. Straighten out as you go back. Then always check

- for "any earlier Dianetic upset" if you get no F/N.
16. There was an Incorrect date. _____
Correct it.
 17. There was an Incorrect duration. _____
Correct it.
 18. There was a false date. _____
Find the real date despite the false date in the incident.
 19. There was a false duration? _____
Find the real duration despite the false duration in the incident.
 20. Is there a stuck picture? _____
Do 1-19 again on the picture and handle.
 21. Is there a persistent mass? _____
(Handle as in 24.)
 22. Was this or an earlier action unnecessary? _____
 23. Was there nothing wrong in the first place? _____
 24. Did you have trouble with a pressure item or with pressure on an item? _____
Date it exactly by meter and find out where it occurred in the universe. If done exactly right, it will blow up and vanish and F/N. If this doesn't work, do this list 1 down to 24 on it and correct it to F/N.
 25. Did you move out of your head earlier in auditing? _____
Do Ext RD. (Ref. HCO B 16 Dec 71 C/S Series 35R.)
 26. Was your Exteriorization Rundown messed up? _____
Check folder on each flow and on the 2wc next day to be sure each flow was run to erasure and the 2wc to F/N. Remember than an auditor report can be a false report, and if you can't find the error in the folder, then do 1 to 24 on each flow. DO NOT AUDIT A PC FURTHER UNTIL THE EXT RD IS TOTALLY CORRECTED. IF YOU DO THE TA WILL RISE, WON'T COME DOWN AND PC WILL BE UPSET OR ILL.

IN CHOOSING WHICH OF THESE READING ITEMS TO HANDLE, ALWAYS HANDLE EXT RD ITEMS FIRST. THEN HANDLE THE REST.

DO NOT CONTINUE AUDITING A PC WHOSE EXT RD WAS MESSED UP AND NOT CORRECTED.

ANY ERROR REMAINING ON AN EXT RD IS DEADLY.

27. Were you being asked things you couldn't answer? _____
28. Did the auditor refuse to accept what you were saying? _____
- Get this and earlier similar instances until you get an F/N VGIs.

FROM HERE ON ASSESS FURTHER ONLY IF PC TA OR UPSET REMAIN UNHANDLED.

IF ANY OF THE FOLLOWING READ, INDICATE IT, GET AN F/N OR GET AN EARLIER SIMILAR UNTIL IT F/Ns.

29. Has an Item read under protest? _____
30. Was there no interest in running item? _____
31. Was there no charge on item in the first place? _____
32. Has an item been misworded? _____
33. Were you more interested in running another item? _____
34. Was the item suppressed? _____
35. Was the item invalidated? _____
36. Was more than you could see demanded? _____
37. Were 2 or more engrams found on the same date? _____
38. Did you skid into another incident? _____
39. Did you move to another chain? _____
40. Did you change the item while running it? _____
41. Were you running an item different from that assessed? _____
42. Was an Implant restimulated? _____
43. Were earlier errors on engrams restimulated? _____
44. Was important data by-passed? _____
45. Was an incident skipped? _____
46. Did 2 or more incidents get confused? _____
47. Has a withhold been missed? _____
48. Has an incident been left too heavily charged? _____
49. Has a chain been abandoned? _____
50. Has an incident been abandoned? _____

51. Were you prevented from running an incident? _____
52. Were processes changed on you? _____
53. Has basic on a chain been by-passed? _____
54. Has an erasure been denied you? _____
55. After it was erased did you have to put it back to erase it? _____
56. Were you running copies of the original after it had gone? _____
57. Have you gone past erasure into another chain? _____
58. Have several different chains been pulled in? _____
59. Has a cognition been chopped? _____
60. Has an F/N been indicated too soon? _____
61. Has the somatic gone but picture still there? _____
62. Should a basic be run through one more time? _____
63. Have you been held up by the auditor? _____
64. Were you distracted in session? _____
- +65. Did you go exterior in an incident? _____
66. Was an incident overrun? _____
- +67. Did you go exterior in session? _____
- *68. Have you not wanted to go earlier than this life? _____
69. Has it been all black? _____
70. Was it all invisible? _____
71. Was the incident really a false or implanted occurrence? _____
72. Have you had constantly changing pictures? _____
73. Have you never had any pictures? _____
74. Are you having to put it there to run it?
Get Earlier Similar times to F/N VGIs. _____
75. Are incidents being overrun? _____
76. Has some major auditing action been done twice? _____
77. Has there been an unnecessary action? _____

78. Was there nothing wrong in the first place? _____

79. Was the real reason missed? _____

80. Was something else wrong? _____

(Do a Green Form.)

NOTE:

+ If questions 65 or 67 read and the pc has not had Interiorization Rundown and the associated 2 way comm, the auditor ends off and sends folder to C/S so it can be C/Sed for Ext RD.

* If questions 68 or 72 read, after indicating BPC, the auditor would end off and return folder to C/S.

WARNING:

Do not use any Prepcheck-type buttons during engram running or add overts to this list as they will "mush" engrams.
