Cramming Officers

Cramming Series 4

CRAMMING EXPERTISE

The Cramming Officer uses Word Clearing Methods 2 and 3 routinely, twinning up Auditors, students and staff who have an OK to do Method 2.

All new HCO Bulletins or technical HCO PLs issued are checked out on all HGC Auditors and Internes by the Cramming Officer within 24 hours of receipt.

The Cramming Officer has these main actions which he ensures are done by all HGC Auditors, C/Ses, and Internes:

- A. That they read the new HCO Bulletin fully.
- B. That all misunderstood words are fully cleared, using Method 3 routinely. Starrate checkout is then done by Cramming Officer.
- C. That all new procedures issued are drilled, including E-Meter drills if required by the procedure.
- D. Clay demos of the key principles in the new HCO Bulletin.
- E. Writes up a list of "Okays to Audit" for the procedure, and sends to D of P for use in pc assignment.

Any confused technical questions, strange ideas or considerations expressed are immediately handled with word clearing Method 2 on the whole text of the HCO Bulletin.

All Case Supervisors and Tech and Qual personnel on technical posts must also check out on all new HCO Bulletins and technical Policy Letters. They do A, B and D above. Word Clearing is done as needed, as covered above.

Most Cramming cycles should be TRs, Code, metering, including positioning, process reviews and drills. The Cramming Officer requires all auditors to review their TRs in Cramming. Auditor quality comes from these actions.

All Cramming cycles are always done in Cramming.

Cramming slips are given to the Cramming Officer and logged. Ordinarily, the cramming cycle is done the same day so the auditor can return to auditing as soon as possible. When it can't be done, the stand-by auditor picks up the pc. An auditor sent to Cramming does it before he audits any further.

An auditor with any outstanding Cramming cycle he has not handled is subject to cancellation of all his okays to audit. An auditor auditing without an okay to audit that grade is subject to total retread. The route to flubless auditing, C/Sing and excellent results is positive and repeated cramming.

All persons coming out of Cramming are required to visit the Student Examiner and get F/N VGIs on the materials crammed or newly checked out. No F/N VGIs results in a return to Cramming to pick up and clear the misunderstands.
