Cramming Series 6

NO F/N AT EXAMS - PC EXAMINER ACTION

When a session results in NO F/N VGIs at the Pc Examiner, it is totally essential that the Auditor be crammed on those actions flubbed in the session.

Therefore, the Pc Examiner must have a small chit, as follows, to report direct to the Cramming Officer:

Auditor Name _____	Date _____
The session on pc _____ did not end with F/N VGIs at the Examiner.	
Please ensure that an immediate Cramming action is done.	
Signed: _____	
Pc Examiner	

The Cramming Officer holds these chits until the end of the day, when the C/S Cramming orders come to Cramming. If there is no Cramming order concerning each reported non F/N VGIs session, the Cramming Officer must order the Auditor or Interne to get the folder, isolate the outness, get this crammed, and order the C/S into Cramming for not having corrected his Auditor, to be crammed on the appropriate issues.

Any discovered instance of a non F/N VGIs folder not being relayed to the C/S, and thus discovered by the Cramming Officer, must result in an immediate Ethics Hearing for No Report.

At the end of each day, the C/S should have his Folder Page collect the names of all non F/N VGIs sessions for that day and match the list off against the Red tag folders.
