WORD CLEARING OCAs

An illegal practice has been uncovered in which the words on the Oxford Capacity Analysis, American Personality Analysis and other tests have been word cleared by testers and Directors of Processing.

Example: Pc does an OCA (or any test) that shows a state of case in July. He gets auditing. He takes another test that shows what the auditing did by August. If somewhere along this line a test I/C or D of P word clears him on the test, the test will change. Entering this variable wipes out any possibility of establishing what the auditing did for the case.

Example: If a child is measured as to height and then fed certain foods to see if he will grow and then someone changes or stretches the tape by which he was measured, you can't find out if the food did any good.

In science this is known as holding a constant.

We don't give a hoot in hell if the pc understands the test or not. The next time he takes it he'll probably have the same misunderstands but he'll have a change of opinion or even have a new cleverness or better memory and the test will change.

Therefore none of these things may ever be done:

1. Never tell the pc the right answers to a test.
2. Never tell a pc to look up words on a test he doesn't understand.
3. Never word clear the question sheet for a pc on any test.
4. Never answer a pc's question as to what a question means.

DO THESE THINGS

A. Be sure any test person grasps this HCO B fully so he knows what a test is and why we test people.

B. Never let a person who falsely reports routinely near a test line.

C. Safeguard test answer sheets from being known or seen by unauthorized personnel.

D. Use 2nd test and 3rd test question sheets, each different from the 1st one. (tests are issued this way).

E. Give other tests (Aptitude or OTIS etc) to compare with the second or third OCA or APA if it is in doubt to see if the OCA has been "word cleared" or falsified.

F. Groove in Examiners: Give a meter check on ALL ATTESTS at the Examiner. "Do you have any doubts or reservations concerning attesting to \_\_\_\_\_ (whatever the attest is) \_\_\_\_\_?" Note any INSTANT read (a latent surge can occur as a protest). This question is asked before the question asking him if he wants to attest. e.g. "Do you have any doubts or reservations concerning attesting to Word Clearing Method 1 complete?" No instant read. Then ask the attest question "Would you like to attest to \_\_\_\_\_."

Never let an Examiner permit any attest or pass to even be asked for if the meter tone arm is high or low or not F/Ning. If an INSTANT read is gotten on the first question above, the Examiner does not ask the second question, and sends the folder back to the C/S.

G. Require a meter check at Success with the TA position and needle behavior noted on the Success form. Those with high or low TA and/or not F/Ning are not valid success stories. The success person makes the meter check after the story is written, notes it without pc seeing it and smiles and acks. He does not refuse the story as it will ARC Break the pc. But he must call it to the attention of the Dist Sec and Qual Sec that a false attestation and poor result came from Div IV and it must be taken off Div IV's stat.

H. Both Examiner and Success must know of the False TA HCO Bs so they don't put the pc on wrong cans or use cans when the auditor used footplates.

This safeguards our test line.

The test line is a check on C/S and auditing quality. We are not trying to find out if Dianetics and Scientology work. We know that. We are trying to find out by test, examiner and success if it is being properly taught and applied in Div IV and Dept of Pers Enhancement.

HONESTY is a primary requirement on test lines. PR types that falsify to attain status or seem good fellows need not apply for these posts and shouldn't be on them.

THE PC OR STUDENT DEEP DOWN KNOWS WHETHER HE HAS MADE IT OR NOT.

If you or tests tell him he's made it when he hasn't he will get a false opinion of you and doubt you.

If you tell him he hasn't made it when he has he will get a false opinion of you.

He will think you don't know your business and blow.

SANITY is basically HONESTY and TRUTH.

When false data or altered data is entered this is ABERRATION.

So be honest and run a sane D of P, Examiner, Success and TEST line.
