Issue V

Expanded Dianetic Series 10

HIDDEN STANDARD R/D

SITUATION:

The pc has been originating during last 2 years of auditing that he "wants to be exterior with full perception". Pc has expected this after each grade - it is the standard by which he has judged his auditing.

LRH Comment: You are really only correctly using Exp Dn if you run intentions on terminals. Further, the purpose of Exp Dn is to cure people or handle insanity.

There is a standard way to handle a Hidden Standard (an HS by definition is not just a physical or mental difficulty but one by which the pc measures his case gains).

There's a Wants Handled or Hasn't Been Handled R/D. This is not a hidden standard which by the definition of its words is a case measurement thing used secretly by the pc.

We will admit this is a hidden standard. It's different than Intentions behind Somatics. To convert this to Exp Dn R3R:

LRH C/S

1. 2 wc to F/N.
2. L&N "Who or what would want to be exterior with full perceptions". (This gets it to a terminal).
3. L&N "What would be the intention of _____ (item found)"
4. R3R Triple on Intention found. (If it goes "Me" for 2 and back to "want to be Ext" drop it as it will run late in the engram like in Ext).
5. Hav.

SITUATION:

In the next session the pc's item is "ME" and item "to be ext with full perceptions".

LRH Comment:

We'll try another basic approach.

LRH C/S

1. 2 wc to F/N.
2. 2 wc What physical situation do you use to measure case gain by?
3. Get what it is. Some BD item. Use same phrasing he uses in doing the L&N (Step 4).
4. L&N What intention is connected to (item in 2). (if he comes up with the same Bxt thing, run it R3R and watch it - be sure to call E/D).
5. Havingness.

LRH Comment:

This is auditing by basic definition.
