Word Clearing Series 49

BUILD UP POWERFUL WORD CLEARERS

It is essential to build up a powerful team of word clearers in order to really honestly restore lost tech in an Org.

Word Clearers are specialists in their area. They are Auditors who have specialized in the application of the technology of Word Clearing, our most powerful repair tool!

One makes Word Clearers in Qual in the same way that a crackerjack Auditor is made in Tech.

1. They study all materials on the subject.
2. They do TRs and drills on the individual actions.
3. They get a Qual OK to Audit to do individual Word Clearing actions.
4. They have all their sessions C/Sed daily by the Qual Sec or Qual C/S.
5. They get crammed every time they goof or red tag a pc.
6. They are handled per C/S Series 84.
7. They do daily TRs along with all Auditors and Tech and Qual personnel.
8. They deliver volume no flub word clearing to be truly effective.
9. They use a WCCL at the first sign of any trouble in Word Clearing.

Word Clearers who are not Class III can be put onto Academy training part time and trained up to III or IV so they can then take on Method One and Word Clearing Correction List specialized correction actions, i.e. Int Rundown Correction.

Word Clearers must have excellent TRs or they will miss out as Word Clearers and back off really finding the word or words and Quickie Word Clearing will creep in. Nothing will put Word Clearing or Qual into disrepute faster than Quickie Word Clearing, other than refusal to deliver Word Clearing.

Qual Secs, handle your Word Clearers as the Auditors that they are and build them up into a powerful team.

Remember, there is no limit to how far an org can go  
with a powerful, effective Qual doing its job.
