above Auditors

7.1: C/S 53 SF

C/S SERIES 53RM SF

(Short Form)

SHORT HI-LO TA ASSESSMENT C/S

The C/S Series 53 Short Form is the basic prepared list used by auditors to get a TA up or down into normal range or to correct case outnesses. A pc who is relatively new to auditing should be assessed on the C/S Series 53 Long Form, which puts the items into full questions.

Assess this list Method 5 and handle reads in the order they occur on the list. When taking the list to F/Ning assessment, it is reassessed Method 5 until the entire list F/Ns. The C/S 53 is never assessed Method 3.

HCOB 30 Oct. 78R, C/S SERIES 53, USE OF, contains data vital to the proper use of the C/S Series 53. Also HCOB 4 July 79, HANDLING CORRECTION LISTS ON OTs, applies when the list is being used on an OT III or above.

PC NAME: _____

DATE: _____

- A. Interiorized into something _____
Go in _____
Went in _____
Put in _____
Want to go in _____
Can't get in _____
Can't go in _____
Want to get out _____
Kicked out of spaces _____
Being trapped _____
Forced in _____
Pulled in _____
- B. List errors _____
Overlisting _____
Wrong items _____
Upset with giving items to auditor _____
Wrong date _____
Wrong location _____
Wrong Why _____
Wrong indication _____
Wrong PTS item _____
- C. ARC break _____
Problem _____
Withholding something _____
Some sort of withhold _____
Not saying _____
False withhold _____
Withholds gotten off more than once _____
Overts _____
Audited over out-ruds _____
Sad _____
Rushed _____
Upset _____
Tired _____
Deadness _____
Unconsciousness _____
Can't get it _____
Protest _____
Don't like it _____
- D. Drugs _____
LSD _____
Alcohol _____
Pot _____
Medicine _____
- E. Engram in restimulation _____
Same engram run twice _____
Can't see engrams too well _____
Invisible _____
Black _____
Loss _____
Lost _____
- F. Same thing run twice _____
Same action done by another auditor _____
- G. Doing something with mind between sessions _____
Some other practice _____
- H. Word Clearing errors _____
Misunderstood words _____
Misunderstood in session _____
Study errors _____
- I. False TA _____
Wrong-sized cans _____
Tired hands _____
Dry hands _____
Wet hands _____
Loosens can grip _____
Wrong hand cream _____
- J. Auditor overwhelming _____
Couldn't hear auditor _____
Couldn't understand what was being said _____
Couldn't understand what was being done _____
Feel attacked _____
Something wrong with F/Ns _____
Overrun F/Ns _____
Missed F/Ns _____
Items really didn't read _____
False reads _____
Reading items ignored _____
Bad auditing _____
Incomplete actions _____
Invalidation _____
Evaluation _____
Couldn't get auditing _____
Interruptions _____
- K. Can't have _____
Low havingness _____
- L. PTS _____
Suppressed _____
- M. Something went on too long _____
Went on by a release point _____
Went on past Dianetic Clear _____
Overrun _____
Auditor kept on going _____
Overrepair _____
Puzzled why auditor keeps on _____
Stops _____
- N. Something else _____
Physically ill _____
- O. Repairing a TA that isn't high _____
Repairing a TA that isn't low _____
Faulty meter _____
Nothing wrong _____
- P. False Exam Report _____
Waited at Exam _____
Upset by Examiner _____

- A. If A or any of the A group reads on ANY pc (including Clear or OT) who has had an Int RD, do an Int RD Correction List Revised (HCOB 29 Oct. 71RA) and handle the reads. If Int correction has already been done on the pc, get an FES on the Int RD AND its corrections. When all errors are corrected, the C/S may order the End of Endless Int Repair RD per Int RD Series 4RA. If the pc is Clear or OT and has not had an Int RD, do the End of Endless Int Repair RD. Do not run any Dianetics.

Otherwise, if the pc has never had an Int RD, give him a standard Int RD per Int RD Series 2R.

WHEN DOING AN INT HANDLING, RUN ONLY THE INT BUTTONS GIVEN ON THE INT RD SERIES HCOBs. Note on the assessment which button(s) have just read on the C/S 53. Other items in the A group are designed to detect out-Int, but don't embrace the earlier beginning, so do NOT run these.

- B. If any of these read, do an L4BRA on the earliest lists you can find that have not been corrected. Lacking these, do an L4BRA in general. You can go over an L4BRA several times handling each read to F/N until the whole L4BRA gives nothing but F/Ns. Handle a Wrong Why or Wrong Indication or Wrong PTS item per C/S Series 78.
- C. Any reading item must be F/Ned. Use standard handlings on rudiments questions. On "Out-Ruds" find which rud and handle. "Sad" = ARC break of long duration so handle the ARC break. If "Deadness" or "Unconsciousness" read, 2WC to F/N (E/S if necessary) and then program for the Personal Revival Rundown.
- D. 2WC to F/N. Do a Drug RD Repair List if the pc has had his Drug RD (HCOB 19 Sept. 78R II). L3RG if needed. Advance Program to handle all reading drugs as soon as possible per NED Series 9RB. (The above handling does not apply to Clears and OTs. On these, indicate the read. See HCOB 30 Oct. 78R, C/S SERIES 53, USE OF, for further data on the handling of Dianetic questions which are reading on Clears and OTs.)
- E. If any of these read, do an L3RG and handle per the instructions. (On Clears and OTs simply indicate the read. Don't run any engrams or seek further to repair. See HCOB 30 Oct. 78R, C/S SERIES 53, USE OF.)
- F. Clean up any protest and inval and rehab to F/N.
- G. Find out what it is. If yoga or mystic exercises or some such, 2WC E/S it to first time done, find out what upset had occurred before that and if TA now down, do LIC on that period of pc's life.
- H. If Word Clearing, do a Word Clearing Correction List, handle all reads. If study errors, 2WC E/S to F/N, and add a Student Correction List to the pc's program.
- I. False TA is wrong cans or other error. Use HCOBs 12 Nov. 71RB, 15 Feb. 72R, 18 Feb. 72RA, 21 Jan. 77RB, 23 Nov. 73RB, all on false TA. Then clean up the bypassed charge with (1) Assess for best read, (a) TA worries, (b) F/N worries. (2) Then 2WC times he was worried about (item) E/S to F/N. (3) Rehab any overruns due to false TA obscuring F/Ns.
- J. These are auditor errors. Low TA is generally caused by overwhelming TRs and incomplete actions. A high TA can be caused by an auditor overrunning F/Ns or failing to call them. Or trying to assess through an F/N and mistaking an F/N right swing for a read. An F/N can be obscured and mistaken for a read if sensitivity too high. These items are all 2WC E/S to F/N. Auditors who made them need cramming badly or retread. Rehab F/Ns that have been missed.
- K. Can't have or havingness. Find correct Havingness Process and remedy.

- L. 2WC to F/N. C/S to program as needed for further PTS handling.
- M. Find out what. Clean up any protest. Rehab to F/N or Date/Locate. On "Went on past Dianetic Clear" 2WC to F/N. Return to C/S. A qualified C/S who has fully checked out on the materials must adjudicate whether this state has been attained before the preclear may attest to Dianetic Clear.
- N. 2WC to find what. Note BD item. If BD item covered by one of these categories, handle per instructions. If not, just 2WC to F/N and get further C/S instructions for handling if necessary.
- O. Get pc to tell you about it briefly. If correct then indicate to F/N. Go E/S and indicate it if no F/N on first. If false TA handle per I above.
- P. Indicate and 2WC to F/N.

Per HCOB 30 Oct. 78R, C/S SERIES 53, USE OF, the order in which reads are to be taken up, is built into the C/S 53 itself. You simply start at the top of the list and take up and handle to F/N each read as you come to it.
