C/S Series 95

"FAILED" CASES

There are no failed cases. There are only failed C/Ses and Auditors.

In a recent test, this was proven conclusively. A number of no-case-gain, slow-case-gain, sickie and "failed cases" were rounded up. Using well trained Flag Auditors and the most basic of lists, every one of these cases was soon flying.

At another time, lists which had been "nulled" by a group of trainee Auditors were then taken over, on the same pcs, same lists, and renulled by Class Xs. Over half the reading items had been missed by the trainees - they simply couldn't make the list read on the pcs. Yet the lists were as alive as sky rockets. The pcs, under the trainee Auditors, had accumulated all manner of by-passed charge by having reading items ignored. And in some cases, having non-reading items given attention.

To a trainee, all this seems incredible and mysterious. He does not realize how very bad his metering can be, how faint and fainting his TR-1. He has numerous tricks which defeat him - such as keeping his sensitivity on 32 for a pc who only requires sensitivity 1, whereas the Auditor misses all his P/Ns as he can't keep the needle at set. He doesn't put his meter so he can see pc, paper and meter eye all in the same scope of vision and misses the reads. His Auditor presence is so poor and his attitude so unprofessional that the pc isn't really in session. His own introversion prevents him from really observing the pc's tone or reaction.

All these faults can be cured and HAVE to be before an Auditor can call himself a real Auditor. Short of that he is just a fooling-about dilettante. And he has "failed pcs".

It takes hard sweating work to get good enough to be a real Auditor. It takes hours and hours and hours of TRs the hard way. It takes a high degree of honesty that includes never faking and going by misunderstandings in his materials, always being honest in his auditing reports, constant practice with his metering, drills with the tone scale and a large degree of self discipline.

It isn't "talent" that makes the good Auditor. It is practice and more practice until he himself knows first that he didn't know and then knows that he really knows.

The source of out tech is only laziness and dishonesty. Someone who is afraid of work thinks he can FR the C/S and the pc, fumble his way through and succeed out of fakery. That route is failure. And it ends in "failed cases". Don't be a psychologist or psychiatrist. That was their route.

In the hands of a thoroughly trained and drilled Auditor, Scientology works and works splendidly.

There are no dog cases, no "ncgs", no failed cases.

But there are "Auditors" who don't study and drill hard enough to become real Auditors. And there are C/Ses who don't know their business and who don't keep up their study and are too lazy to FBS or read sessions or cram their Auditors.

There are an awful lot of excellent Auditors and many very fine C/Ses. But in some local areas, where verbal tech gets going and ethics is out, the quality sags. And there you have ncgs and slow pcs and "failed cases".

Want to know how lazy your C/Ses and Auditors are? How many ncgs and failed cases do you have around? If you have any at all, tech in your area is out.

A C/S 53RJ taken to F/Ning list and a GF40X taken to an F/Ning list will cure any ncg or failed case. BUT it has to be done by an Auditor who has sweated it out doing the checksheets of Qual required to make a list read.

So do not send to find the real who when cases bog or "fail". Don't blame and repair cases. Repair the Auditors and C/Ses.

It not only can be done. It is easier to do it than wrestle around with an "ARC Broken field".

And it not only can be done, it MUST be done.
