Terminals

IN-TECH, THE ONLY WAY
TO ACHIEVE IT

The dominating factor of tech being in, is whether the Auditor really wants to do a good job and help the pc. It is a matter of professional competence and pride.

If the Auditor does not have this there is no amount of rules, reading or supervision that will bring about technical successes.

Fortunately the vast majority of Auditors have a high professional conscience and are willing to study, drill and do everything possible to perfect their tech. The Course Supervisor, the D of P, the C/S and Qual Cramming terminals must realize this and must do all possible to fortify it and must abstain from invalidations and accusations and injustices which tend to nullify it.

From this springboard of belief in the Auditor and a willingness on the part of those training and handling him, to strengthen the Auditor's determination to be professionally competent, in-Tech will only then blossom in an org.
