Alphabetical List of Subjects

Dianetic C/Sing is its own zone of technology.

Dianetic and Scientology (R) C/Sing Technologies are different in many respects and must not be mixed. These technologies are complementary to each other in the long over-all view of case handling. The rule is simply that whenever a preclear is being run on Dianetics, at any case or Grade level, the rules of Dianetic Case Supervision apply.

Dianetics can be run on any Grade of preclear or Pre-OT if necessary. It can even be run on a preclear who has had only a C/S No. 1 and no other auditing. The need for Dianetic Auditing can and does occur at any case level.

The advent of "Expanded Grades" and the C/S Series of HCO Bulletins and Triple Flow Dianetics does not cancel the basics of Dianetics Case Supervision; these developments clarify and complement Dianetic Case Supervision.

Dianetics is Dianetics. It is for use.

The use of this Dianetic C/S's Index will help you to achieve the maximum gains attainable with Dianetics.

Use it.

THE DIANETIC CASE SUPERVISOR'S INDEX

This index lists categories of preclear's 'situations' and HCO Bulletins and BTBs that give the proper handling for the situations.

Preclear situations are listed in the left-hand column.

HCO Bulletins and BTBs giving the proper handling of the situations are listed in the right-hand column.

There are spaces provided for additional HCOBs to be added to each category as they may be issued in the future. It is expected that a person using this index would keep it up to date himself.

SECTION I: USUAL SITUATIONS AND ACTIONS

Starting a preclear

Note: When R3R is run for the first time as at any later time it is run Triple Flow. See Section III for C/S data on Triple R3R.
