THE NEW ERA DIANETICS CASE SUPERVISOR'S INDEX

This C/S's Index is for use in Case Supervising *New Era Dianetics* Auditing.

Reference: *New Era Dianetics Series 1-18* (and any that may follow).

New Era Dianetics C/Sing is its own zone of technology.

Dianetic and Scientology C/Sing Technologies are different in many respects and must not be mixed. These technologies are complementary to each other in the long overall view of case handling. The rule is simply that whenever a preclear is being run on Dianetics, at any case or Grade level, the rules of Dianetic Case Supervision apply.

Dianetics can be run on any Grade of preclear or Pre-OT if necessary. It can even be run on a preclear who has had only a *Dianetic C/S-1* and no other auditing. The need for Dianetic Auditing can and does occur at any case level.

The advent of "Expanded Grades" and the C/S Series of HCO Bulletins and *Quad Dianetics* do not cancel the basics of Dianetics Case Supervision; these developments clarify and complement Dianetic Case Supervision.

Dianetics is Dianetics. It is for use.

The use of this *New Era Dianetics* C/S's Index will help you to achieve the maximum gains attainable with *New Era Dianetics*.

Use it.

THE NEW ERA DIANETICS CASE SUPERVISOR'S INDEX

This index lists categories of preclear "situations" and HCO Bulletins and BTBs that give the proper handling for the situations.

Preclear situations are listed as *sub-headings*.

HCO Bulletins and BTBs giving the proper handling of the situations are listed *below the sub-headings*.

There are spaces provided for additional HCOBs to be added to each category as they may be issued in the future. It is expected that a person using this index would keep it up to date himself.
