HCO BULLETIN OF 26 NOVEMBER 1971

ISSUE III

SAME TITLE

OUT OF VALENCE - 220H

This BTB is corrected as the commands were too permissive.

220H is the reference number for an LRH Class VIII C/S action used in handling the GF-40 item "Out of Valence".

This action is done after completing LX 3, 2, & 1 actions only if the PC has not had the Valence Cognition. (REF: HCOB 2 Aug 69 "LX" Lists.)

220H Procedure

3 Way Recall

1. Clear Recall.
2. Give R-Factor: We are going to run 3 flows of Recall.
3. Clear F1 "Recall another causing you to be someone else".
4. Run repetitively to F/N Cog VGIs.
5. Clear F2 "Recall you causing another to be someone else".
6. Run F2 repetitively to F/N Cog VGIs.
7. Clear F3 "Recall another causing another or others to be someone else".
8. Run F3 repetitively to F/N Cog VGIs.
9. Give R-Factor: We will now run 3 flows of R3R on being someone else.
10. A. Give F1 Command:
"Locate an incident containing pain and unconsciousness of another causing you to be someone else."
B. Use Standard R3R procedure.

- C. F1 Command for going earlier:
"Is there an earlier *similar* incident containing pain and unconsciousness of another causing you to be someone else?"
- D. Run to F/N Cog VGIs and Erasure.
11. A. Give F2 Command:
"Locate an incident containing pain and unconsciousness of you causing another to be someone else."
- B. Use Standard R3R procedure.
- C. F2 Command for going earlier:
"Is there an earlier *similar* incident containing pain and unconsciousness of you causing another to be someone else?"
- D. Run to F/N Cog VGIs and Erasure.
12. A. Give F3 Command:
"Locate an incident containing pain and unconsciousness of another causing another or others to be someone else."
- B. Use Standard R3R procedure.
- C. F3 Command for going earlier:
"Is there an earlier *similar* incident containing pain and unconsciousness of another causing another or others to be someone else?"
13. Do not run beyond the EP of Major Cog with remarkable valence shift. (PC will cognite on having been out of valence and will return to his own valence. It's a cognition on beingness, not doingness or havingness, that indicates the EP.)
