HCO POLICY LETTER OF 2 SEPTEMBER 1972  
ISSUE II  
GOOD CRAMMING IS THE KEY TO FLUBLESS  
AUDITING AND AUDITORS

Cramming Series 10

GOOD CRAMMING IS THE KEY TO FLUBLESS  
AUDITORS AND AUDITING

All Cramming Officers are to put up a large well lettered, permanent sign in the Cramming area:

GOOD CRAMMING IS THE KEY TO FLUBLESS AUDITORS AND AUDITING

LRH

The datum above is 100% true.

Qual, through Cramming, Word Clearing and the Library, restores lost technology to an Org and area.

Where an Org is in trouble, there will be Out Tech, accompanied by requests for Refunds or return of advanced payments. In the presence of Out Tech, tech terminals will be harder to handle, thus Cramming must be very sharp and strong, with no Q and A.

A Cramming Officer never never accepts "no misunderstands" from a Word Clearer on a person who is not applying the data. He gets the Word Clearing done by another Word Clearer who can find misunderstood words, using any and all methods necessary to get and clear them. And he gets the original Word Clearer pulled into Qual and crammed.

A failed Auditor must never be posted as a Cramming Officer. Only a successful Auditor who has an unshakeable knowledge that Standard Tech works every time will make a good Cramming Officer. This person will not tolerate the slightest deviation from Standard Tech and have the patience and persistence to honestly complete each Cramming cycle to a real result.

A successful Auditor, also a trained Supervisor, and fully trained up in Cramming Technology, who fully uses Word Clearing and crams in the right materials and can find Right Whys will provide the good Cramming which will produce flubless Auditors and Auditing.

The Cramming Officer is only expected to be a genius who can handle and correct any Situation with effortless competence in the real Qual tradition.
