Cen0cen HCO POLICY LETTER OF OCTOBER 23, 1959

Academy Training

No student should ever be refused training. Processing can be recommended, but not insisted upon as a pre-requisite to training.

If a student is in bad shape, he'll never get passed off the HCA Comm Course, and, of course, extra weeks cost more (L7. 10s per week in Sterling areas).

Students can always be recommended by the Director of Training to come off course and get processing in the HGC. But, never put a STOP on the line before a student has tried, that is, begun the course.

A potential student is reaching.
