HCO POLICY LETTER OF AUGUST 24, 1961

HGC ALLOWED PROCESSES

Until further notice the HGC allowed processes shall be:

Routine 1
Routine 1A
Routine 3.

Routine 1A is preferred on all pcs and should be begun as early as possible and flattened fully before a Routine 3 Assessment is attempted.

Routine 3 has failed only where rudiments are flagrantly out during assessment or in running.

Routine 1A inhibits out rudiments and ARC breaks. It flattens in from 25 to 100 hours. It speeds goals assessment to as little as $2\frac{1}{2}$ hours if 1A is flattened.

Routine 1A consists of any version of problems and all HCO WW Form Security Checks.

Not know, unknown version of problems processes and security checks are allowed.

It is policy that no preclear on staff or in the HGC be assessed for goals or run on goals or run further on goals until Routine 1A is flat in all versions.

This guarantees clearing if auditors are also technically expert and flatten all processes begun by them.

Saint Hill Tapes of recent date and other materials cover and will continue to cover this subject.

This is policy. It must be followed.

L. RON HUBBARD.
